

# Every Brick in Place – Lyrics

Strict doesn't mean we're tied  
It opens doors, it lets us fly  
With rules that hold, the flow is free  
That's the strength of clarity

Every brick has its place  
A foundation we embrace  
One by one, the structure stands  
Freedom building in our hands

Decisions come with ease  
The map is clear, the mind's at peace  
No confusion, no disguise  
Just a system that aligns

Every brick has its place  
A foundation we embrace  
One by one, the structure stands  
Freedom building in our hands

Structure makes us stronger  
Keeps the chaos gone  
Order turning into flow  
That's the ground we're standing on

Every brick has its place  
A foundation we embrace  
One by one, the structure stands  
Freedom building in our hands

Every brick has its place  
A foundation we embrace  
One by one, the structure stands  
Freedom building in our hands

Every brick has its place  
One by one, the structure stands
