

Ready When It Count – lyrics

You want results, not just design
No time to model every line
The world moves fast, no time to wait
We prep the board before the plate

It's not about the tools you've got
It's how you use the time you've bought
Reuse the map, define the frame
Speed and structure win the game

We're ready when it counts
Got the layers, got the bounds
Not starting from a blank page now
We've built the why, the who, the how

Ready when it counts
Flowing fast without the doubts
Like a chef with all the prep in place
We move with purpose, not with haste

Anna's got the view she needs
Johan brings those plug-and-plays
Lena's team can move in sync
And Erik sees the missing links

We don't model just to show
We build the core that helps you grow
Less is more when well-defined
That's how you keep ahead of time

We're ready when it counts
Got the layers, got the bounds
Not starting from a blank page now
We've built the why, the who, the how

Ready when it counts
Flowing fast without the doubts
Like a chef with all the prep in place
We move with purpose, not with haste

No rush, no race
Just rhythm and grace
We don't guess, we trace
Each model in place

Ready when it counts... (vocal chop)

So when the change comes knocking loud
We don't panic in the crowd
We've got the setup, we've got the stance
We're ready when it counts

We're ready when it counts
Got the layers, got the bounds
Not starting from a blank page now
We've built the why, the who, the how

Ready when it counts
Flowing fast without the doubts
Like a chef with all the prep in place
We move with purpose, not with haste
